Reviso's Accounting Platform on Microsoft Azure Aims for Collaboration Between Small Businesses and Accountants, with Scanning, Alerts, and More

MICROSOFT AZURE SOLUTION BUILDER PROFILE: REVISO

We build flexible, user-friendly products that strengthen and support collaboration between you and your business partners. We believe in collaboration and that the better we work together, the better we do business. Our motto is: "People don't buy what you do – they buy why you do it."
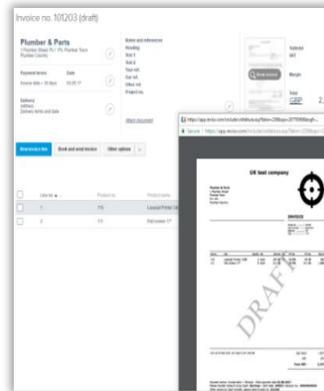

WHAT WE OFFER

Thanks to the Reviso scanning feature, you can capture your invoice with a photo and send it with a touch to the Reviso system, every time and everywhere. Thanks to Microsoft Azure, features, data, and privacy are safe and secure.

Reviso provides effortless expense management in tight collaboration with company advisors so that financial data captured gets booked correctly. Thanks to Microsoft Azure, all information is correctly stored and secure.

Reviso supports full quote, order, invoice, and reminder flows with a flexible template designer, and you get at-a-glance information on customers, invoices, and balance due. Microsoft Azure provides a perfect information backup and a structured way in which monitoring and alerts are managed.

Reviso provides a number of editable standard setups. Together with powerful bank reconciliation and Microsoft Azure, it is a strong toolset for accounting professionals. Easily import/export data in .csv file format.

WHAT OUR CUSTOMERS ARE SAYING

"I chose Reviso because the system is simple and flexible but big and capable and can be accessed from wherever I am, whenever I want." – Lennie Gent, Owner, Metals Direct

Microsoft | Go-To-Market Services

Microsoft Azure

Microsoft Azure is an open and flexible cloud platform that enables you to quickly build, deploy, scale, and manage applications across a global network of Microsoft data centers. You can build applications using multiple languages, tools, and frameworks.

KEY USE CASES

WEB APPLICATIONS

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

CLOUD STORAGE

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

BIG DATA & HPC

Get actionable insights from your data by taking advantage of a fully compatible enterprise-ready Hadoop service.

MOBILE

Accelerate your mobile app development by using a backend hosted on Microsoft Azure. Scale instantly as your install base grows.

MEDIA

Create, manage, and distribute media in the cloud – everything from encoding to content protection to streaming and analytics support.

FLEXIBLE APPLICATION MODEL

Microsoft Azure provides a rich set of application services, including SDKs, caching, messaging, and identity. You can write applications in .NET, PHP, Java, node.js, Python, Ruby, or using open REST protocols. This is all part of Microsoft's promise to let you build using any language, tool, or framework.

ALWAYS ON, ALWAYS HERE

Build resilient applications with automatic operating system and service updating, built-in network load balancing, and geo-redundant storage. Microsoft Azure also proudly delivers a 99.95% monthly SLA. You can rely on decades of experience in data center operations and trust that everything Microsoft Azure offers is backed by industry certifications for security and compliance.

DATA CENTER WITHOUT BOUNDARIES

Microsoft Azure makes it easy for you to integrate your on-premises IT environment with the public cloud. Migrate your virtual machines to Microsoft Azure without the need to convert them to a different format. Use the robust messaging and networking capabilities in Microsoft Azure to deliver hybrid solutions, and then manage your hybrid applications from a single console with Microsoft System Center.

GLOBAL REACH

With data centers around the globe, a massive investment in data center innovation, and a worldwide Content Delivery Network, you can build applications that provide the best experience for users, wherever they are.
